Matcha On Ice

THE MATCHA BASE

Our Matcha

Nekohama's A1 Organic is our cornerstone ceremonial-grade matcha — a first-harvest, single-origin matcha made from tencha leaves grown in the volcanic soils of Kagoshima, Japan, using a cultivar blend of Sayamakaori, Okumidori, Saemidori and Yabukita.

Flavor-wise it's naturally sweet and creamy with a strong umami note and no bitterness. It's JAS-certified organic, milled monthly using modern low-heat, low-moisture grinding technology that preserves colour and aroma.

WATER TEMPERATURE

160°F – 175°F (70°C – 80°C)

Never use boiling water — it scorches the delicate green tea powder and creates an overly bitter, harsh taste.

THE MATCHA BASE

Proportions

INDIVIDUAL — 1:10 RATIO

12 oz
